Fiber to the Home Construction

Four Steps From Your Neighborhood to Your Home

We are excited that our fiber construction is well underway in Aurora. Once fiber is buried to your neighborhood, there are four steps to bring fiber to your home, each of which has a separate crew and time-frame.

Here is the four-step process:

Fiber Site Survey

A survey is completed inside your home to determine the best place to install the equipment necessary to receive fiber service.

Bury to Home

The fiber is buried from the vault through your yard and to the home, up to the box installed during the site survey.

Fiber is Spliced

A Hamilton[®] fiber technician will splice the fiber to prepare it for use.

Connect Inside the Home

The fiber conversion is made and the service is "lit" in your home. Once complete, all services will be delivered over fiber.

Fiber to the Home delivers the fastest, most reliable internet service available. We are working hard to ensure that you have the best connectivity to internet and so much more!

Back-to-School With More Speed

As students head back to school, access to reliable, high-speed internet becomes even more important. Homework activities may include everything from online research to streaming videos.

How do you know how much internet speed you need for your household? Many families are using more than one device at a time. For example, you may be streaming a movie while checking your email — all while your kids are connected to online gaming. If you multi task or have several devices running off the same broadband connection, the demand on your system will increase and you may need more speed. Check out our guide, "How Much Speed Do You Need?", at Hamilton.net/guide-to-broadband.

Increase Your Internet Speed & Save

RECEIVE \$25 OFF your next bill when you increase your internet speed to any plan of 7 Mbps or more.

Special valid July 23 - August 3.

Visit our booth at the Hamilton County Fair. July 26-29, 2018
